

Start your rabbit, just like you started the owl. String 14 beads on your line. Make sure they're in the middle. Thread one side of the string around and through the last 7 beads.

How to make the tail

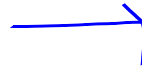

String 8 beads on either side of the string. Loop the other side of the string through 4 beads.

String a pony bead (or a crystal bead) and one seed bead.

Leave out the seed bead and loop back with the same string through the pony bead.

String the string through the remaining 4 beads. Pull tightly.
